About Georgia Tech

The Georgia Institute of Technology (Georgia Tech or GT) is one of the United States' top research universities, distinguished by its commitment to improving the human condition through advanced science and technology.

Georgia Tech offers many nationally recognized, top-ranked programs. Georgia Tech consistently ranks among U.S. News & World Report's top 10 public universities in the United States. In a world that increasingly turns to technology for solutions, Georgia Tech is using innovative teaching and advanced research to define the technological university of the 21st century.

About Atlanta

One of the most beautiful cities in the United States, Atlanta is cosmopolitan yet retains its Southern charm. It is the capital of Georgia and the commercial, cultural, financial, and transportation hub of the Southeast. Four hundred of the 500 largest U.S. industrial corporations operate in the metropolitan area. The metropolitan Atlanta area has a population of more than 5.3 million people. Atlanta is the headquarters of CNN, Coca-Cola Corporation, Delta Air Lines, Georgia Pacific, Home Depot, the Centers for Disease Control and Prevention, AT&T and Chick-fil-A.

2024 Atlanta Summer Program

- Atlanta program dates: July 11 – August 2, 2024
- This program is limited to students with advanced level of English proficiency
- You must be 18 years or older (by the program start date) in order to participate
- Georgia Tech Language Institute transcript upon completion of the program
- Organized program activities; cross-cultural activities

Courses: Each student will take three courses

CHOOSE ONE REQUIRED COURSE:

- American Popular Culture (includes site visits)
- American Studies (includes site visits)

CHOOSE TWO ELECTIVE COURSES:

- Business Case Studies
- Ethics in Science and Technology
- Leadership Across Cultures
- Academic Writing
- Public Speaking

American Popular Culture

In this course, you will use the skills of writing, reading, speaking, and listening in English as you learn about the U.S. and the city of Atlanta from a popular culture perspective. This course will focus on businesses from three industries—fast-food industry, sports industry, cable news industry-- that have influenced the culture of Atlanta, the U.S., and the world. The specific businesses are Coca-Cola, the Atlanta Braves and CNN. In addition to learning about these topics in class, you will take field trips to sites that are associated with these businesses.

American Studies

In this course, you will use the skills of writing, reading, speaking, and listening in English as you learn about the city of Atlanta from a historical and contemporary perspective. The U.S. American history topics covered in this course will focus on historical events that were especially important in the city of Atlanta. The topics include the Civil War, *Gone with the Wind*, the Civil Rights Movement, and the establishment of CNN. In addition to learning about these topics in class, you will take field trips to sites that are associated with these historical events.

Ethics in Science and Technology

In this course, you will learn about ethics in science and technology while you practice developing your reading, speaking, writing, listening, and critical thinking skills. This class will be taught in a manner that is similar to a typical academic seminar in American universities, which means that you will also have the opportunity to learn more about the teaching and learning practices of typical American university classrooms.

Business Case Studies

In this course, you will learn basic techniques for analyzing and writing about business cases. You will learn the characteristics of different types of business cases and different types of business case analyses. You will practice listening and speaking skills by participating in interactive lectures and discussion activities related to learning how to read and analyze business cases. You will practice reading and writing skills by reading and writing both business cases and business case analyses.

Public Speaking

In this course, you will learn how to give more effective oral presentations to American audiences. You will practice giving different types of short presentations. You will develop your understanding of how both the body and the voice are used in effective oral presentations for American audiences.

Leadership Across Cultures

In this course, you will learn about the theoretical and practical aspects of leadership in the cross-cultural context. You will practice oral presentation, reading, writing and listening skills in English while discussing relevant topics in leadership. In this class, the instructor will give short interactive lectures on specific topics during each class period. Lectures are followed by practical application of topics and / or guest lecturers to reinforce hand-on activities or conceptual ideas. The class is structured in an interactive format and will require active participation by all students at all times. Through coursework, you will gain an appreciation of cross-cultural differences in leadership as well as enhance your personal leadership capabilities.

Course Credits

- Program courses earn Continuing Education Credits (CEUs)
- CEUs provide a measure of educational achievement, and are widely recognized by employers, industry, professional associations, and certification and licensing agencies as evidence of education progress.
- Georgia Tech Language Institute certificates will be provided upon successful completion of the courses.
- Course grades are letter based (A, B, C, D, F)
- Courses can be transferred to home school (elective)
